Dept. of Computer Science & Engineering

About the Institution

Rajiv Gandhi Institute of Technology, named after the late Prime Minister Rajiv Gandhi, started functioning in 1991. The college is one of the nine engineering colleges, fully owned and run by the Government of Kerala. The institute offers Bachelor of Technology (B. Tech.) course in five disciplines, Bachelor of Architecture (B. Arch) course, Master of Technology (M. Tech) course in six specializations, Master of Computer Applications (MCA) course, and Doctoral programs. The college is affiliated to A.P.J. Abdul Kalam Kerala Technological University, and recognized by All India Council for Technical Education. All the B.Tech. programs of the College is accredited by National Board of Accreditation (NBA)

About the Department

The Department of Computer Science and Engineering, formed in the year 1999, is a full-fledged department with modernized laboratory facilities to equip the students with the growing demands and the changing trends of the software industry and research laboratories. Since its inception, it has been keen in producing professionals of unmatched quality. The department offers four year B. Tech course and two year M.Tech course in Computer Science & Engineering

About the course

As you can see, nearly half of the websites on the internet are running on the WordPress website platform. Just look at those statistics made by W3 Techs and Built with word press. The workshop includes Basics of signal

processing, and familiarization of Audio and Video signal processing tools

OBJECTIVES

Word press is the commonest content management system in the world used in over 60 million websites and counting. Learn how to set up websites in word press in a few weeks. This 100% practical course would teach you the functionality of the word press platform, the themes, plugins and other basic features to enable you set up word press websites for personal blogging or for your potential clients effectively and efficiently.
