BoG Decision:

The BoG observed that many of the proposals are offered for all the students of the class without assessing the actual requirement of the students as well as the classes were proposed to augment the regular classes.

As per the NPIU Guidance Brief - Improving the Academic Performance of Weak Students through the Equity Action Plan, it is suggested that "The performance of weak students is reviewed by the teacher during the semester, and efforts made to strengthen teaching, and/or provide extra teaching as needed. Reviewing student attendance in connection with performance, and advising students about attending classes, making up classes missed, and getting additional help is also useful."

The BoG directed to conduct the classes only for weaker students (who could not pass the subjects) considering the spirit of equity action plan as envisaged by NPIU.
